

Heinz Revisited Case Study → Due: Tuesday, March 24

25 Points Possible ☺

Kohlberg's Theory of Moral Development

*** Assignment must be student ready – you should be able to hand this assignment to any teacher and he/she should be able to use it as is. ☺**

For this assignment you are to do the following:

- 1. Using Heinz as a guideline, write a dilemma that could be used in the classroom setting. The dilemma must:**
 - Be age appropriate (be sure to state the grade level for which you are writing)
 - Have more than one possible solution (you will have to create responses at Kohlberg's different stages)
 - Be detailed enough for people to understand it easily (depending on grade level)

- 2. You must then write detailed responses for each of Kohlberg's stages.**
 - You need responses for stages 1-4; you may include stage 5 if you wish
 - After each response, you must include details supporting the fit for the particular stage (justify why your sample response would be a stage 1 answer)
 - The assignment must be typed and edited
 - The dilemma itself should be on one piece of paper and the responses on another
 - I have student exemplars if you are interested in looking at them – let me know and I can place them on BB
