

EDUC 302 – Motivation Assignment – Due: Tuesday, March 31.

No Resubmissions or Late Assignments Accepted ☺

Task: You are to create a Hierarchy of Needs Self Assessment for use in your future classroom.

√Worth = 20 Points Possible

As we know, if students don't have their basic needs met, they are much less likely to perform well academically, physically, and behaviorally in school. It is in YOUR best interest to know what needs are and are not being met. When you have this information, you will be better able to create a classroom climate that meets each student's needs.

The Self-Assessment Must (One letter grade will be deducted for each error/omission):

- Indicate the grade level (specific) and content area (for secondary)
- Have an introduction and specific instructions for completion
- Include **developmentally appropriate questions** that can successfully measure each of the 4 stages of the hierarchy (physiological, safety, relationship & belongingness, esteem)
- Include 5 questions per stage (20 total)
- Format is very important here!! Don't make all questions open-ended.
- Have a scoring/interpretation guide
- Be grammatically correct
- **Be user friendly – with graphics and/or tables. An automatic grade of zero will be assigned if not followed.**
- Be free of typos: **Each** typo will result in a full letter grade deduction!
